

Instructor

☒ Update post error (Local)

InstructorController.php

```
public function comments($batch_id, $post_id){  
    $batch = Batch::where('id', $batch_id)  
    ->with(['post' => function ($query) use ($post_id) {  
        $query->where('id', $post_id)->with(['comments', 'files']);  
    }])  
    ->first();  
    $batch->post->formatted_created_at = Carbon::parse($batch->post->created_at)-  
    >timezone('Asia/Manila')->format('Y-m-d H:i:s');  
    // dd($batch);  
    return view('student.comments', compact('batch'));  
}
```

Fix

changing the name of a function in model
